

ABOUT ME

Front-End Developer with a proven ability to collaborate effectively with senior developers while spending extra time to be mentored. Enjoy working closely with team members to ensure workloads are effectively redirected to bottlenecks and personally picking up the slack when necessary. With a passion for both personal growth and for software development. Throughout my experience as a software developer I've focused on developing scalable and well documented code. Ready to apply my passion for coding to a talented engineering team to develop quality solutions
